The ESC S2

- Simplify Access Control
- ESC Locks replace existing mechanical locks in minutes
- No wires, drilling or power supplies required on doors
- Restrict access by Key, Groups, levels and/or time
- Euro profile, Cam, Plug, mortise, rim and padlocks
- Audit trail of all events stored in both key and lock
- Modular, expandable, Flexible, Network ready
- Simple set up– Computer built in to ControlVault
- Upgradeable– grows and changes as your needs change
- Cost effective solution for physical and electronic access control
